## ROTOCON Europe now member of VskE

CAPE TOWN, South Africa (November 9, 2023)—ROTOCON Europe is now a member of the [VskE](#), a German association for manufacturers of self-adhesive label and narrow web converters covering the DACH countries.

The VskE tackles important issues that equally affect all companies in the label market and focuses on promoting the industry and supporting member companies. The spectrum of work ranges from projects on technology development or digitalization to topics such as the need for skilled workers, consumer protection, ecology, market data, recycling, and more.

Contact members from ROTOCON Europe for the VskE are André Klinkow (ROTOCON Europe Chief Operations Officer), Michael Aengenvoort (ROTOCON group CEO), Pascal Aengenvoort (ROTOCON director and co-owner), and Patrick Aengenvoort (ROTOCON director and co-owner).

Each spring and fall the VskE invites members and selected guests to a two-day event for an exchange of opinions and experiences. The program of lectures imparts valuable knowledge and current market developments which is then discussed with other participants in a networking environment. ROTOCON Europe will be attending the VskE fall conference held in Würzburg, Germany November 16-18.

*André Klinkow, ROTOCON Europe Chief Operations Officer*

"As the VskE is a highly respected association for the label printing industry in the DACH region, ROTOCON Europe will benefit from this membership and the opportunity it provides to keep informed of trends and interact with other members," said Michael Aengenvoort, ROTOCON group CEO. "We look forward to attending the VskE fall conference."

ROTOCON Europe is based in Dätgen, Germany (near Hamburg) where it provides ROTOCON ECOLINE and CHROME label printing and finishing machine demonstrations and factory acceptance testing of purchased equipment. It also provides full service and technical support and is supported by agents locally in Europe.
